The nazis herded the Jews of Poland into ghettos, the largest one being the Warsaw Ghetto. It had 400,000 inhabitants.

The zionists herded the Palestinians into ghettos, the largest one being the Gaza Strip. It **HAS** one and a half million inhabitants.

Warsaw Ghetto fighters were mostly armed with pistols and revolvers (if at all) with just a few rifles and automatic firearms available. The insurgents had little ammunition, and relied heavily on improvised explosive devices and incendiary bottles.

Gaza Strip fighters are mostly unarmed, relying mostly on rocks that they find. The insurgents have little or no ammunition relying heavily on improvised explosive devices and incendiary bottles.

Support from outside the Warsaw Ghetto was limited.

Support from outside Gaza is NON EXISTENT. Israel has divided what was left of the Palestinian people into two camps, one in Gaza and the other in the Occupied West Bank, with no contact or support from the latter.

On the eve of Passover, 1943, the police and SS auxiliary forces entered the

Warsaw Ghetto planning to exterminate the residents within three days. They suffered losses and were repeatedly ambushed by Jewish insurgents who shot and launched Molotov cocktails and hand grenades at them from alleyways, sewers and windows. The German advance was eventually halted.

On the eve of Passover, 2008, the police and Israeli troops entered the Gaza Strip planning to exterminate the residents within a similar time period. They were also ambushed by Palestinian insurgents. To date the Zionist advance has not been halted.

### **Fate of the German war criminals**

Franz Bürkl was assassinated by the Polish resistance in October 1943. Same month, Ferdinand von Sammern-Frankenegg was killed by [Croatian](#) partisans in [Yugoslavia](#).

[Odilo Globocnik](#), Heinrich Himmler, and [Friedrich Krüger](#) all followed [Adolf Hitler](#) and committed suicide in May 1945.

Jürgen Stroop was convicted of [war crimes](#) in two different trials and executed by [hanging](#) in Poland in 1951 (Stroop's aide [Erich Steidtmann](#) was exonerated for "minimal involvement"). [Ludwig Hahn](#) went into hiding until 1975, when he was apprehended and sentenced to life in prison for [crimes against humanity](#). He died in prison in 1986.

### **Fate of the Israeli war criminals**

Their fate has yet to be determined.

As stated above, this **'TALE OF TWO GHETTOS'** was not written by Charles Dickens. Both 'tales' are real... one is history, the other is history being repeated by those that did not learn from it.

In the end, Palestine will be victorious and free... that will also be a part of the history being repeated.
